

## Who is a Prophet?

An Imam, a professor in Catholic theology, and a Professor in Judaism and world religions will meet to discuss prophecy. What a fantastic way to build unity!

- What does it mean to be a prophet?
- How does each faith understand prophet?
- What is a prophet's mission?
- Do the three faiths have the same prophets?
- Who is called to be a prophet?
- Do we have present-day prophets? Who are they and what is their advice?

You can be part of that discussion and ask your questions at the
